

SEC. HITCHCOCK TO RESIGN SOON

Postal Official Will Manage
Taft's Campaign.

WILL RETIRE THIS MONTH

President Roosevelt Joined in Request
That He Conduct the War Secre-
tary's Fight for the Republican
Presidential Nomination.

Washington, Feb. 8.—Announcement
has been made of the approaching re-
tirement from the postal service of
Frank H. Hitchcock, first assistant
postmaster general. Mr. Hitchcock
will assume the active management
of the campaign of Secretary Taft for
the Republican nomination for the
presidency.

The exact date of the retirement has
not been determined definitely, but it
probably will be about Feb. 15.

Mr. Hitchcock will be succeeded as
first assistant postmaster general by
Dr. Charles H. Grandfield, who for a
little more than two years has been
chief of the bureau over which Mr.
Hitchcock presides. Dr. Grandfield
has been actively identified with the
postal service for about twenty years
and is widely known and highly es-
teemed, personally and officially.

Several weeks ago Mr. Hitchcock
was requested by Secretary Taft to
undertake the management of his
campaign. The secretary desired to
enlist his services, not only because
he is widely known throughout the
country and has had experience of a
valuable kind in campaign work, but
because he felt the necessity of hav-
ing a man in charge to whom he could
refer questions that were arising con-
stantly and so which he was unable
to devote the time they seemed to de-
mand. It is no secret that Secretary
Taft in order to dispose of the great
amount of work incident to the direc-
tion of his department, has been
obliged for several weeks practically
to exclude himself from visitors a part
of the time. The work has been ex-
ceedingly trying, as he is under a se-
vere mental and physical strain for
from sixteen to twenty hours every
day.

Desired Immediate Acceptance.

When Secretary Taft made the pro-
ffer of the management of his cam-
paign to Mr. Hitchcock he desired
that he undertake the work immedi-
ately. As that, in the view of Mr. Hit-
chcock, would have necessitated his re-
tirement at once from the office of
first assistant postmaster general, be-
cause he could not with propriety con-
duct a political campaign from the
postoffice department, he told Secre-
tary Taft that he could not assume the
duties of campaign manager on the
spur of the moment. He asked for
time to consider the subject and to
confer with friends. To this the sec-
retary entered no objection, but ex-
pressed a desire that a decision be
reached as soon as practicable.

In considering the matter with his
friends, Mr. Hitchcock found himself
somewhat embarrassed, because he
had instituted on behalf of the postal
service certain lines of action which
he felt he ought to follow to their con-
clusion. This would render it neces-
sary for him to appear in his official
capacity before committees of con-
gress. He finally informed Secretary
Taft that if he could be given time to
meet his obligations and duties to the
postal service he would accept his
proffer.

Practically, Mr. Hitchcock now has
concluded the work on which he was
engaged and in a few days he will ter-
minate his resignation and leave the pos-
tice department. President Roose-
velt joined with Secretary Taft in re-
questing Mr. Hitchcock to undertake
the campaign work.

McKenzie Not a Candidate.

St. Paul, Feb. 8.—M. H. Jewell, se-
cretary of the Republican state com-
mittee of North Dakota, who is now in
St. Paul, has received a letter from
Alexander McKenzie, national com-
mitteeman for that state, announcing
that he would not be a candidate for re-
election. Mr. McKenzie has been a
member of the Republican national
committee for the past eight years and
it was expected that he would be the
candidate of the stalwart faction for
the honor at the state convention that
meets in Minot, May 14.

Woman Commits Suicide.

Philadelphia, Feb. 8.—Miss Harriet
Baird Huey, former president of the
Philadelphia chapter, Daughters of the
American Revolution, committed sui-
cide at her home in this city by inhaling
illuminating gas. Efforts were
made to keep the matter a secret, a
special inquest having been held in
the case by the coroner.

MINORITY CURRENCY BILL.

Drawn Up by the Democratic Leader
of the House.

Washington, Feb. 8.—What will be
known as "the minority currency bill"
was introduced by Representative
John Sharp Williams of Mississippi,
the Democratic leader of the house,
who drew the measure as a result of
a conference of Democrats behind
closed doors. Those besides Mr. Wil-
liams who participated in the confer-
ence were Representatives Lewis of
Georgia, Pujo of Louisiana, Glass of
Virginia, Gillespie of Texas, Ollie
James of Kentucky, Crawford of North
Carolina and McHenry of Pennsylv-
nia, all members of the committee on
banking and currency. Entire har-
mony is said to have marked the meet-
ing.

It is understood that the bill as
drawn by Mr. Williams may be sub-
jected to slight amendment by its sup-
porters, but it will come before the
house in the shape of a minority re-
port from the banking and currency
committee in its present form.

Among the provisions of the bill
are the following:

It repeals all laws permitting na-
tional banks to keep three-fifths of
their reserves in national banks of re-
serve cities and similar laws permit-
ting such deposit of one-half of the
reserve amounts.

It provides that not less than one-
half of the reserves now required to be
kept in lawful money in central
reserve cities, shall be hereafter held
in gold or gold certificates.

It does away with the payment of
national bank examiners by the fee
system and substitutes salaries not
less than \$3,000 nor in excess of \$5,000
yearly with actual expenses.

It provides that the total liabilities
of any national bank, inclusive of the
liabilities of its members, shall not
exceed one-tenth of the bank's paid-in
and unimpaired capital stock, and one-
tenth of its unimpaired surplus fund;
and that in no event shall the liabili-
ties exceed 30 per cent of the capital
stock.

But the discount of bills of exchange
drawn in good faith against actually
existing values, and the discount of
commercial or business paper actually
owned by the person negotiating it
shall not be considered as liabilities.

Violation of this section is made a
misdemeanor punishable by fine or im-
prisonment.

No national bank shall loan in the
aggregate more than seven times the
amount of its paid-up capital plus its
unimpaired surplus.

Violation is punishable as provided
in the section preceding.

PENNYPACKER INVOLVED.

Former Governor of Pennsylvania
Brought Into Graft Case.

Harrisburg, Pa., Feb. 8.—The trial
of Contractor Sanderson and three for-
mer state officers charged with con-
spiracy in the furnishing of the new
capitol, took a sensational turn when
Stanford B. Lewis, assistant to Archi-
tect Huston, declared with dramatic
earnestness that Huston's letter to
Former Attorney General Carson, ex-
plaining his part in the contracts, had
been prepared at the suggestion of
Former Governor Pennypacker. For-
mer Auditor General Snyder, one of
the defendants, and Mr. Carson, and
that it was "misleading," and intend-
ed to be a "whitewash."

According to Lewis' story, when it
came to Huston's turn to write an
answer to Mr. Carson, Lewis was tele-
phoned to come over to Harrisburg by
Pennypacker and Snyder, and that the
letter was prepared at a conference
with those two officers and the former
attorney general to "dovetail" in with
others prepared by state officers con-
nected with the construction and
equipment of the capitol.

The letter to which Lewis referred
was one of a series written during No-
vember and December, 1906, in re-
sponse to the Carson inquiry into the
capitol scandal. Lewis was on the
stand all day and was under a con-
stant fire of questions by counsel for
the defense. His cross-examination
will be continued Monday.

MANY PERSONS RELEASED

Unlimited Clemency Granted to Of-
fenders in Portugal.

Lisbon, Feb. 8.—All persons who
were arrested last week charged with
secreting bombs, arms, etc., and three
persons who were supposed to be reg-
icides, have been released. A detach-
ment of political prisoners from the
Caxias fortress, numbering about 100,
was awaited at the station here by
Republicans, who made a demonstra-
tion and cheered for "the republic."
The unlimited clemency is greatly ap-
preciated by the Republicans, but is
sharply criticised by members of other
parties. The police discovered a
secret depot of arms containing 400
carbines.

MORSE ON CAMPANIA

Missing Banker Located on
Board the Steamer.

ENJOYING A GAME OF CARDS

Had No Hesitation in Granting an In-
terview to a Correspondent—De-
clares He Will Not Stay in Europe
More Than Ten Days.

Queenstown, Feb. 8.—A correspon-
dent of the Associated Press boarded
the Cunard line steamer Campania and
found Charles W. Morse of New York
in the smoking room enjoying a game
of cards.

Without a moment's hesitation Mr.
Morse granted an interview to the cor-
respondent. He was shown extracts
from London papers referring to him
as having fled from his creditors, etc.
Mr. Morse said there was absolutely
nothing in these reports, saying they
were New York "sensationalists." He
added that he had sent cable dis-
patches to New York concerning his
position and that he would rectify
matters when he returned there. He
was traveling partly on business and
partly for pleasure for a week or ten
days.

Asked where he purposed going af-
ter he landed at Liverpool, Mr. Morse
courteously begged to be excused from
replying.

"You can," he said, "say with cer-
tainty that my stay will not exceed
ten days on this side, and that then
I will return to New York."

Mr. Morse proceeded from Queens-
town to Liverpool on board the Cam-
pania. He is traveling under an as-
sumed name, probably C. M. Moore.

Mr. Morse made no secret of his
identity and smiled when he was in-
formed of the reports concerning him
that had reached the English newspa-
pers. Mr. Morse talked in a similar
vein to other newspaper correspond-
ents who boarded the Campania here.

He seemed to regard the period of
liquidation in the United States as the
aftermath of the recent panic. On his
return to the United States, he said,
he would endeavor to recon-
struct his interests and hoped they
would work smoothly and give satisfac-
tion.

At the conclusion of the interview
Mr. Morse again resolutely declined to
divulge what his movements in Eu-
rope would be, but it is believed he
will go to Paris.

DID NOT SURPRISE THEM.

Friends of Banker Morse Learn of
His Whereabouts.

New York, Feb. 8.—Those in close
touch with the situation expressed no
surprise when they received through
the Associated Press cable dispatches
the first direct word from Charles W.
Morse since he sailed on the Campania
last Saturday. His friends were glad
to know that he was in evident good
health and spirits and that he planned
to make an early return to this coun-
try. They said that Mr. Morse had
hoped to be able to spend about a
week on the other side and that his
announced purpose of adhering to his
original plan indicates that he was
far less distressed over his financial
affairs than has been supposed.

United States District Attorney
Stimson, while consistently declining
to discuss the case so far as the in-
quiry into national banks by the fed-
eral grand jury was concerned, said
that he was pleased to receive con-
firmation of his conviction that the
banker had sailed as reported.

Attorney Boardman had received no
direct advices from Mr. Morse up to
the hour that the attorney left his
home to keep a social engagement.

At a meeting of the bondholders'
protective committee of the Consoli-
dated steamship lines it was an-
nounced that Albert B. Boardman of
the law firm of O'Brien, Boardman &
Platt, for himself and his firm, re-
signed as associate counsel for the
committee.

After adjournment Alvin W. Krech,
chairman of the committee, made a
statement which follows in part:

"The committee as now constituted
represents more than a majority of
the outstanding bonds of Consolidated
steamship lines and is making a full
and thorough investigation into the
status of all the subsidiary companies
and expects shortly to formulate a
plan for the restoration of the com-
pany."

Seek New Asylum for Thaw.

Fishkill Landing, N. Y., Feb. 8.—
With the purpose of seeking an asy-
lum more congenial for Harry Thaw
than Matteawan state hospital, where
he is now under observation, Mrs.
Evelyn Nesbit Thaw and Daniel
O'Reilly, one of Thaw's counsel, will
inspect the insane asylum in Pough-
keepsie. Mrs. Thaw and Lawyer
O'Reilly visited Thaw, when the con-
templated visit to Poughkeepsie was
discussed. Josiah Thaw was also a
caller on his brother.

TEN MEN MEET DEATH

Buried Under Tons of Coal in
a Nova Scotia Mine.

CAUSED BY AN EXPLOSION

Accident Occurred Soon After the
Day's Work Had Begun in the
Shaft—Origin of the Explosion Is
Unknown.

Port Hood, N. S., Feb. 8.—Six coal
miners and four loaders were crushed
to death as the result of an explosion
in the Port Hood mine of the Port
Hood-Richmond Railway Coal com-
pany. Whether the explosion was due
to gas, fire-damp or gunpowder re-
mains to be determined by a coroner's
jury.

The accident occurred soon after
the day's work had begun. The explo-
sion was in the south level and the
six miners and four loaders were
buried under tons of soft coal that
were loosened by the explosion.

Practically every man of the 300
miners employed in the pit volunteered
for rescue duty. As the rescuing
party progressed into the mine no gas
was met nor was there any evidence
of after-damp, and as a result the re-
scue work was facilitated.

With the exception of the four Bul-
garian loaders all of the victims were
natives of this place and were de-
scendants of the highland Scotchmen
who settled Cape Breton. All were
well known and the scenes at the
bankhead when the bodies were
brought one by one to the surface
were distressing in the extreme.

The property damage was slight.

EXPRESS TRAIN WRECKED

More Than a Score of Persons Are
Injured.

Franklinville, N. Y., Feb. 8.—The
Washington express on the Pennsylv-
ania railroad was wrecked two miles
south of here. The train was made
up of only two cars, one a Pullman
and the other a day coach, carrying
in all twenty passengers and a crew
of six men. All of the passengers
and four of the train crew were badly
shaken up and bruised. Ten of them
were taken to hospitals at Olean and
Buffalo. The others were able to pro-
ceed to their destinations.

The derailment is said to have been
due to spreading rails caused by the
recent severe weather. The engine
and tender passed the bad spot safely,
but the two cars rolled down a thirty-
foot embankment.

The most seriously injured are E.
De Kleist, mayor of Tonawanda; A. E.
Mercy of Toronto and S. D. Crosson,
also of Toronto. They are internally
injured.

Two Negroes Executed.

Lake Charles, La., Feb. 8.—Albert
West and Edward Williams, negroes,
were hanged in the parish jail. West
was hanged first. The rope broke
when the trap was sprung, but he was
quickly sprung again and soon strug-
gled to death. Williams was hanged
five minutes after West's body was
cut down.

Falls to His Death.

Battle Creek, Mich., Feb. 8.—C. E.
Haddox, ex-warden of the West Vir-
ginia penitentiary, is dead here as the
result of a fall from the fourth floor
of a local sanitarium. He arrived here
two weeks ago to take treatment for
nervous prostration.

TOO MANY AFFINITIES.

Bault Ste. Marie Woman the Cause of
a Duel.

Chicago, Feb. 8.—Mrs. Grace Franks
of Bault Ste. Marie boasts of a hus-
band and two soul mates. Hence she
is in jail here.

"The talk about affinity is right,"
said Mrs. Franks, "but it's ridiculous
to talk about having only one 'soul
mate.' I have had two. But you must
not let your affinities mix."

Mrs. Franks is a prisoner in the
Harrison street police station annex;
Todd Naylor, Soul Mate No. 2, seri-
ously wounded, is a patient in the coun-
ty jail hospital, and Percy McDonald,
Soul Mate No. 1, is confined in the
Maxwell street police station.

The two men fought a knife duel in
an apartment house at 288 Washing-
ton boulevard for possession of the
woman, who is claimed to be the bet-
ter half of both. Neither of the men
believes in the affinity idea.

Mrs. Franks gave a graphic descrip-
tion of her life since she adopted af-
finity principles. She is twenty-one
years of age and attractive.

"I was married when I was six-
teen," she said, "and soon afterwards
became acquainted with McDonald.
From the first I knew he was—well,
what professors call an affinity—so I
left my husband and went with him
to Minneapolis. He was employed
there by the Northwestern Railway
company. Life was happy for several
years, when my second 'soul mate' ap-
peared.

"I had believed that there could be
but one. But when he said 'come' I
went with him. We came to Chicago
to live.

"But before we were settled here
McDonald dropped in from apparently
nowhere. All I remember after that
was that some one was stabbed and
the police came and arrested all of
us."

"The woman was my wife," said Mc-
Donald in his cell. "I married her
three years ago, and the two little
children with her—Emma and Percy—
are mine. To get them back I followed
my wife and forgave her. I traced
her trunks to Chicago, and when she
and her new affinity refused to give
up the boy and girl and attacked me I
used a knife."

BITTER DENUNCIATION.

Keynote of Address of Prosecutor in
Mrs. McDonald's Case.

Chicago, Feb. 8.—A bitter denun-
ciation of the tactics of the defense was
the keynote of the address of Assas-
tant State's Attorney Day, who began
the concluding arguments in the trial
of Mrs. Dora McDonald, charged with
killing Webster Guerin. He made
charges of prejudice, treachery, per-
jury and bribery against the opposing
witnesses and counsel, and con-
demned Inspector John Wheeler of
the Chicago police for inactivity, as-
serting that the official had lost in-
terest in the case when he learned
that the prisoner was the wife of
his old friend, Michael C. McDon-
ald.

He also referred to John M. Col-
lins, former chief of police, and Frank
Comerford, former attorney for the
police department, declaring that they
had taken statements from witnesses,
which had afterward been delivered to
attorneys for the defense instead of
being turned over to the state's attor-
ney's office.

There was no hint of the death pen-
alty in Mr. Day's address. He asked
the jury to find the woman guilty of
murder, but gave it to understand that
a penitentiary sentence will satisfy
the prosecution. The address oc-
cupied the entire afternoon session and
was not concluded.

WEEKLY REVIEW OF TRADE

Nearly All Branches of Industry Quiet
the Country Over.

New York, Feb. 8.—Bradstreet's re-
view of trade says while retail trade
in some lines of wearing apparel has
been helped by the coldest or stormiest
weather of the winter other branches
of trade and industry and transporta-
tion have been interfered with suffi-
ciently to make the week as a whole
a rather quiet one the country over.
Wholesale and jobbing trade has been
rather quiet and while there are
signs that improvement along con-
servative lines is making progress,
the caution as regards spring buying
is as marked as ever and the country
merchants' policy, even where the
most active buying is noted, is in the
direction of small and frequent rather
than large purchases. Commodity
prices as a whole are irregular, grain
quotations rallying from the depres-
sion of last month, but other lines
show little strength and this week
some metals, provisions and cotton
are lower, with most other lines dis-
playing a weak tone. Cotton goods
are no lower, but raw wool sales are
largely at concessions. Collections
show little improvement. From the
Southwest come reports that some
cancelled orders are being reinstated.
From the South come advices of slow
trade and collections, but some lum-
ber mills are reported resuming with
stocks reduced by the recent shut-
down. Eastern trade reports are
quiet.

DIES OF HIS WOUNDS.

John T. Wilson Succumbs to Injury In-
flicted by His Brother-in-Law.

St. Louis, Feb. 8.—John T. Wilson,
president and founder of the Interna-
tional Brotherhood of Maintenance of
Way Employees, who was shot Wednes-
day night by his brother-in-law, died
here. The police are now searching
for the brother-in-law, Frank Engle-
man, who was released on bond Fri-
day. The shooting was the result of
domestic troubles. Mrs. Wilson and
her son, Frank Wagner, were arrest-
ed Thursday on Wilson's statement to
the effect that they were in a con-
spiracy to kill him.

Fourteen Sailors Wounded.

Paris, Feb. 8.—Admiral Phillibert,
commanding the French naval forces
in Moroccan waters, telegraphed that
fourteen sailors were wounded, fire
of them seriously, as the result of an
accident to the boiler of the cruiser
Jean d'Arc off Tangier. The vessel
proceeded to Tangier, where the in-
jured men were placed in hospitals.

Shoots His Father and Himself.

Chicago, Feb. 8.—Wilhelm Williams
shot and killed his father, John Wil-
liams, at the family home, 4632 Ash-
land avenue. The son then fired a
bullet into his own head. It is
thought that the wound will prove
fatal. The double tragedy followed a
family quarrel.

SEC. HITCHCOCK TO RESIGN SOON

Postal Official Will Manage

President Roosevelt Joined in Request

Washington, Feb. 8.—Announcement
has been made of the approaching re-

Frank H. Hitchcock, first assistant
postmaster general. Mr. Hitchcock
will assume the active management
of the campaign of Secretary Taft for
the Republican nomination for the

was one of a series written during No-
vember and December, 1906, in re-
sponse to the Carson inquiry into the
capitol scandal. Lewis was on the
stand all day and was under a con-
stant fire of questions by counsel for
the defense. His cross-examination
will be continued Monday.

MANY PERSONS RELEASED

Unlimited Clemency Granted to Of-
fenders in Portugal.

Lisbon, Feb. 8.—All persons who
were arrested last week charged with
secreting bombs, arms, etc., and three
persons who were supposed to be re-
cruits, have been released. A detach-
ment of political prisoners from the
Caxias fortress, numbering about 100,
was awaited at the station here by
Republicans, who made a demonstra-
tion and cheered for "the republic."
The unlimited clemency is greatly ap-
preciated by the Republicans, but is
sharply criticised by members of other
parties. The police discovered a
secret depot of arms containing 400
carabines.

MORSE ON CAMPANIA

Missing Banker Located on
Board the Steamer.

ENJOYING A GAME OF CARDS

Had No Hesitation in Granting an In-
terview to a Correspondent—De-
clares He Will Not Stay in Europe
More Than Ten Days.

Queenstown, Feb. 8.—A correspon-
dent of the Associated Press boarded
the Cunard line steamer Campania and
found Charles W. Morse of New York
in the smoking room enjoying a game
of cards.

Without a moment's hesitation Mr.
Morse granted an interview to the cor-
respondent. He was shown extracts
from London papers referring to him
as having fled from his creditors, etc.
Mr. Morse said there was absolutely
nothing in these reports, saying they
were New York "sensationalists." He
added that he had sent cable dis-
patches to New York concerning his
position and that he would rectify
matters when he returned there. He
was traveling partly on business and
partly for pleasure for a week or ten
days.

Asked where he purposed going af-
ter he landed at Liverpool, Mr. Morse
courteously begged to be excused from
replying.

"You can," he said, "say with cer-
tainty that my stay will not exceed
ten days on this side, and that then
I will return to New York."

Mr. Morse proceeded from Queens-
town to Liverpool on board the Cam-
pania. He is traveling under an as-
sumed name, probably C. M. Moore.

Mr. Morse made no secret of his
identity and smiled when he was in-
formed of the reports concerning him
that had reached the English newspa-
pers. Mr. Morse talked in a similar
vein to other newspaper correspond-
ents who boarded the Campania here.

He seemed to regard the period of
liquidation in the United States as the
aftermath of the recent panic. On his
return to the United States, he said,
he would endeavor to recon-
struct his interests and hoped they
would work smoothly and give satis-
faction.

At the conclusion of the interview
Mr. Morse again resolutely declined to
divulge what his movements in Euro-
pe would be, but it is believed he
will go to Paris.

DID NOT SURPRISE THEM.

Friends of Banker Morse Learn of
His Whereabouts.

New York, Feb. 8.—Those in close
touch with the situation expressed no
surprise when they received through
the Associated Press cable dispatches
the first direct word from Charles W.
Morse since he sailed on the Campania
last Saturday. His friends were glad
to know that he was in evident good
health and spirits and that he planned
to make an early return to this coun-
try. They said that Mr. Morse had
hoped to be able to spend about a
week on the other side and that his
announcement of purpose of adhering to
his original plan indicates that he was
far less distressed over his financial
affairs than has been supposed.

United States District Attorney
Stimson, while consistently declining
to discuss the case so far as the in-
quiry into national banks by the fed-
eral grand jury was concerned, said
that he was pleased to receive con-
firmation of his conviction that the
banker had sailed as reported.

Attorney Boardman had received no
direct advices from Mr. Morse up to
the hour that the attorney left his
home to keep a social engagement.

At a meeting of the bondholders'
protective committee of the Consoli-
dated steamship lines it was an-
nounced that Albert B. Boardman of
the law firm of O'Brien, Boardman &
Platt, for himself and his firm, re-
signed as associate counsel for the
committee.

After adjournment Alvin W. Krech,
chairman of the committee, made a
statement which follows in part:

"The committee as now constituted
represents more than a majority of
the outstanding bonds of Consolidated
steamship lines and is making a full
and thorough investigation into the
status of all the subsidiary companies
and expects shortly to formulate a
plan for the restoration of the com-
pany."

Seek New Asylum for Thaw.

Fishkill Landing, N. Y., Feb. 8.—
With the purpose of seeking an asy-
lum more congenial for Harry Thaw
than Matteawan state hospital, where
he is now under observation, Mrs.
Evelyn Nesbit Thaw and Daniel
O'Reilly, one of Thaw's counsel, will
inspect the insane asylum in Pough-
keepsie. Mrs. Thaw and Lawyer
O'Reilly visited Thaw, when the con-
templated visit to Poughkeepsie was
discussed. Josiah Thaw was also a
caller on his brother.

TEN MEN MEET DEATH

Buried Under Tons of Coal in
a Nova Scotia Mine.

CAUSED BY AN EXPLOSION

Accident Occurred Soon After the
Day's Work Had Begun in the
Shaft—Origin of the Explosion is
Unknown.

Port Hood, N. S., Feb. 8.—Six coal
miners and four loaders were crushed
to death as the result of an explosion
in the Port Hood mine of the Port
Hood-Richmond Railway Coal com-
pany. Whether the explosion was due
to gas, fire-damp or gunpowder re-
mains to be determined by a coroner's
jury.

The accident occurred soon after
the day's work had begun. The explo-
sion was in the south level and the
six miners and four loaders were
buried under tons of soft coal that
were loosened by the explosion.

Practically every man of the 300
miners employed in the pit volunteered
for rescue duty. As the rescuing
party progressed into the mine no gas
was met nor was there any evidence
of after-damp, and as a result the re-
scue work was facilitated.

With the exception of the four Bul-
garian loaders all of the victims were
natives of this place and were de-
scendants of the highland Scotchmen
who settled Cape Breton. All were
well known and the scenes at the
hankhead when the bodies were
brought one by one to the surface
were distressing in the extreme.

The property damage was slight.

EXPRESS TRAIN WRECKED

More Than a Score of Persons Are
Injured.

Franklinville, N. Y., Feb. 8.—The
Washington express on the Pennsylv-
ania railroad was wrecked two miles
south of here. The train was made
up of only two cars, one a Pullman
and the other a day coach, carrying
in all twenty passengers and a crew
of six men. All of the passengers
and four of the train crew were badly
shaken up and bruised. Ten of them
were taken to hospitals at Olean and
Buffalo. The others were able to pro-
ceed to their destinations.

The derailment is said to have been
due to spreading rails caused by the
recent severe weather. The engine
and tender passed the bad spot safely,
but the two cars rolled down a thirty-
foot embankment.

The most seriously injured are E.
De Kleist, mayor of Tonawanda; A. E.
Mercy of Toronto and S. D. Crosson,
also of Toronto. They are internally
injured.

Two Negroes Executed.

Lake Charles, La., Feb. 8.—Albert
West and Edward Williams, negroes,
were hanged in the parish jail. West
was hanged first. The rope broke
when the trap was sprung, but he was
quickly sprung again and soon strug-
gled to death. Williams was hanged
five minutes after West's body was
cut down.

Falls to His Death.

Battle Creek, Mich., Feb. 8.—C. E.
Haddox, ex-warden of the West Vir-
ginia penitentiary, is dead here as the
result of a fall from the fourth floor
of a local sanitarium. He arrived here
two weeks ago to take treatment for
nervous prostration.

TOO MANY AFFINITIES.

Bault Ste. Marie Woman the Cause of
a Duel.

Chicago, Feb. 8.—Mrs. Grace Franks
of Bault Ste. Marie boasts of a hus-
band and two soul mates. Hence she
is in jail here.

"The talk about affinity is right,"
said Mrs. Franks, "but it's ridiculous
to talk about having only one 'soul
mate.' I have had two. But you must
not let your affinities mix."

Mrs. Franks is a prisoner in the
Harrison street police station annex;
Todd Naylor, Soul Mate No. 2, seri-
ously wounded, is a patient in the coun-
ty jail hospital, and Percy McDonald,
Soul Mate No. 1, is confined in the
Maxwell street police station.

The two men fought a knife duel in
an apartment house at 288 Wash-
ington boulevard for possession of the
woman, who is claimed to be the bet-
ter half of both. Neither of the men
believes in the affinity idea.

Mrs. Franks gave a graphic descrip-
tion of her life since she adopted af-
finity principles. She is twenty-one
years of age and attractive.

"I was married when I was six-
teen," she said, "and soon afterwards
became acquainted with McDonald.
From the first I knew he was—well,
what professors call an affinity—so I
left my husband and went with him
to Minneapolis. He was employed
there by the Northwestern Railway
company. Life was happy for several
years, when my second 'soul mate' ap-
peared.

"I had believed that there could be
but one. But when he said 'come' I
went with him. We came to Chicago
to live.

"But before we were settled here
McDonald dropped in from apparently
nowhere. All I remember after that
was that some one was stabbed and
the police came and arrested all of
us."

"The woman was my wife," said Mc-
Donald in his cell. "I married her
three years ago, and the two little
children with her—Emma and Percy—
are mine. To get them back I followed
my wife and forgave her. I traced
her trunks to Chicago, and when she
and her new affinity refused to give
up the boy and girl and attacked me I
used a knife."

BITTER DENUNCIATION.

Keynote of Address of Prosecutor in
Mrs. McDonald's Case.

Chicago, Feb. 8.—A bitter denun-
ciation of the tactics of the defense was
the keynote of the address of Assas-
tant State's Attorney Day, who began
the concluding arguments in the trial
of Mrs. Dora McDonald, charged with
killing Webster Guerin. He made
charges of prejudice, treachery, per-
jury and bribery against the opposing
witnesses and counsel, and con-
demned Inspector John Wheeler of
the Chicago police for inactivity, as-
serting that the official had lost in-
terest in the case when he learned
that the prisoner was the wife of
his old friend, Michael C. McDon-
ald.

He also referred to John M. Col-
lins, former chief of police, and Frank
Comerford, former attorney for the
police department, declaring that they
had taken statements from witnesses,
which had afterward been delivered to
attorneys for the defense instead of
being turned over to the state's attor-
ney's office.

There was no hint of the death pen-
alty in Mr. Day's address. He asked
the jury to find the woman guilty of
murder, but gave it to understand that
a penitentiary sentence will satisfy
the prosecution. The address occu-
pied the entire afternoon session and
was not concluded.

WEEKLY REVIEW OF TRADE

Nearly All Branches of Industry Quiet
the Country Over.

New York, Feb. 8.—Bradstreet's re-
view of trade says while retail trade
in some lines of wearing apparel has
been helped by the coldest or stormiest
weather of the winter other branches
of trade and industry and transporta-
tion have been interfered with suffi-
ciently to make the week as a whole
a rather quiet one the country over.
Wholesale and jobbing trade has been
rather quiet and while there are
signs that improvement along con-
servative lines is making progress,
the caution as regards spring buying
is as marked as ever and the country
merchants' policy, even where the
most active buying is noted, is in the
direction of small and frequent rather
than large purchases. Commodity
prices as a whole are irregular, grain
quotations rallying from the depres-
sion of last month, but other lines
show little strength and this week
some metals, provisions and cotton
are lower, with most other lines dis-
playing a weak tone. Cotton goods
are no lower, but raw wool sales are
largely at concessions. Collections
show little improvement. From the
Southwest come reports that some
cancelled orders are being reinstated.
From the South come advices of slow
trade and collections, but some lum-
ber mills are reported resuming with
stocks reduced by the recent shut-
down. Eastern trade reports are
quiet.

DIES OF HIS WOUNDS.

John T. Wilson Succumbs to Injury In-
flicted by His Brother-in-Law.

St. Louis, Feb. 8.—John T. Wilson,
president and founder of the Interna-
tional Brotherhood of Maintenance of
Way Employees, who was shot Wednes-
day night by his brother-in-law, died
here. The police are now searching
for the brother-in-law, Frank Engle-
man, who was released on bond Fri-
day. The shooting was the result of
domestic troubles. Mrs. Wilson and
her son, Frank Wagner, were arrest-
ed Thursday on Wilson's statement to
the effect that they were in a con-
spiracy to kill him.

Fourteen Sailors Wounded.

Paris, Feb. 8.—Admiral Philibert,
commanding the French naval forces
in Moroccan waters, telegraphed that
fourteen sailors were wounded, fire
of them seriously, as the result of an
accident to the boiler of the cruiser
Jean d'Arc off Tangier. The vessel
proceeded to Tangier, where the in-
jured men were placed in hospitals.

Shoots His Father and Himself.

Chicago, Feb. 8.—Wilhelm Williams
shot and killed his father, John Wil-
liams, at the family home, 4632 Ash-
land avenue. The son then fired a
bullet into his own head. It is
thought that the wound will prove
fatal. The double tragedy followed a
family quarrel.

"HOBSON'S choice" is the way the Little Falls Herald speaks of the advent of a son in the family of Capt. Richmond J. Hobson.

THE International Falls Press suggests the motto "Abide with me" for any new coins issued by the government. Would that keep the money after one got it?

AFTER April next all banks in the state will either be national or state under the statute of 1907. Private institutions will not be allowed to use the word "bank" and will not be allowed to transact a banking business, they must be incorporated on or before that date.

THE Minnesota State Editorial Association, of which A. J. Halsted, of the Brainerd Tribune is president, will hold their 42d annual meeting in Minneapolis on Thursday and Friday, February 20 and 21. The meeting will probably be one of the most interesting held for some years as a fine program has been arranged and several papers of more than ordinary interest will be read.

Extensive Peace Guards.

Some idea of what it costs to have military protection in Russia can be gathered by the following figures: Prince Naryszkin, whose estates are in Lithuania, near the Courland frontier, is afraid of strikes and riots. A year ago he asked for some dragoons, who were sent to the manor house and have been there ever since. For this he pays £190 a month to the government.

They have already cost him £2,280 in cash, to say nothing of huge quantities of meat, wood, straw, hay, oats and clover, which he is obliged to give them free of charge. All told, he reckons that his "protection" costs him about £4,000 a year. At such a rate only rich men can afford to feel secure in Russia. The poor ones must run the risk of being looted.

White Goose of February.

Down from his wilderness the north wind sings:
White Goose of February, flap your wings!
Powder the heavens with a drift of down,
Silver the meadows and the roof capped town.

Rude is the winter, and his touch is cold;
Frail are the seedlings in the crumbling mold.
Weak are the rootlets of the sapling trees—
White Goose of February, shelter these.

Chill is your plumage, yet it cloaks from
Waifs of the forest and the furrowed farm.

White Goose of February, hover here,
Brooding the blessing of a fruitful year.

The Information Contained in This Citizen's Statement is Priceless

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Brainerd who has suffered hours of torture caused by kidney complaint will stand in his own light if he does not follow the valuable advice offered here.

Mrs. J. H. Zellars, of 915 Main St., Brainerd, Minn., says: "Before using Doan's Kidney Pills I suffered for six months from my kidneys. The secretions were badly discolored and I also suffered from a heavy pain across the small of my back. A box of Doan's Kidney Pills were procured for me at H. P. Dunn's drug store. I took them and a cure resulted. I can truthfully say that I have not had a symptom since. On October 28th, 1904, six years after giving the above statement, Mrs. Zellars said: 'I am just as pleased to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since they cured me.'"

RIDDLE OF INSTINCT.

Scientists Are Studying Mysteries of Inherited Traits.

CURIOUS EXPERIMENTS MADE

Animals, Plants and Insects Used as Subjects—How Newly Hatched Turtles Make Their Way to the Sea. Developing New Fruits.

"When the hands are clasped together there is usually a perfect constancy as to which thumb is uppermost, but some people always put the right uppermost, others the left. I hope to find out if this character is inherited and, if so, what laws are followed," says P. E. Lutz of the Carnegie institute's laboratory of experimental evolution, according to a Washington dispatch to the Kansas City Star. A similar character he finds in the hind wing coverings of crickets, the right usually overlapping the left in males, although in some of the latter the reverse is the case. The inheritance of this position is being tested by Mr. Lutz, who, with insects as material, is studying the problems of heredity. He has mated 125 pairs of crickets for this season's work, and on his pedigree stock he has bred a new form, having underdeveloped wings, wing coverings and ovipositors, or egg planters.

To learn how heredity can be controlled is the primary function of this new laboratory, toward whose support \$25,000 of the ironmaster's millions is being annually appropriated. "The most important definite question to answer is, How may the course of the stream of germplasm that has come down to us from remote ages be controlled in its onward course?" says Dr. C. B. Davenport, director of the laboratory. Presuming that heredity is governed by the same laws in man and beast, Dr. Davenport is studying the lower animals first, because naturally they are more easily handled and more amenable to discipline. For this year's experiments he has twenty controlled strains in mammals, sixty in poultry, fifteen in cage birds, five in crickets, some two dozen in other insects and 400 in flowering plants. In some of his insects he has controlled the heredity for twenty generations.

The mysteries of "instinct" are being inquired into in the course of another series of investigations lately commenced by the institute. The ability of the newly hatched turtle to run directly toward the sea without losing time groping in a landward direction has been one of the phenomena of instinct long a puzzle to science. At the institute's new laboratory of marine biology at Tortugas, Fla., this problem has been lately attacked by Davenport Hooker of the laboratory staff. After experimenting with loggerhead turtles he finds that they are born with an instinct to go down hill and in the direction of the greatest light. This instinct leads the animals to the sea, as the shores on which they are hatched always slope down toward the ocean and as the reflected light from the water is always greater than that from the land. Neither the sound of the surf nor the smell of the sea guides them.

A study of the mysteries of "protective coloring" in insects has been commenced at the Tortugas station by Professor Charles R. Stockard. He has begun with that ungainly creature, the "walking stick," which nature has not only colored, but formed to deceive its enemies, for when hidden in foliage it looks like a slender twig with branches. Professor Stockard says that it feeds and breeds by night, and by day remains motionless in a protective attitude among the stems of its food plant, from which it is difficult to distinguish its form. Both the stems and the insect vary considerably in color, but the latter generally fails to select branches matching its own shade. When disturbed it usually drops bodily to a branch below or to the ground, where it feigns death. In a new series of experiments with these uncanny insects Dr. Stockard blackens their eyes and removes their feelers, after which he subjects them to various noises and colored lights "to test the modification of their behavior." He will announce his results later. He has also set upon wire legs dummy figures made up of parts of the bodies of dead walking sticks and has studied the behavior of live specimens toward them.

To determine what economic plants can be made to flourish in the great deserts of our arid southwest the desert botanical laboratory which the institution has built at Tucson, Ariz., is doing interesting work under the guidance of D. T. MacDougal, director of the department of botanical research. A boat lately built for this laboratory is now circumnavigating the great inland "Salton sea" of California, which has an area of 500 square miles. Mr. MacDougal estimates that the greater part of this lake will disappear in ten years, and this expedition is tracing movements of vegetation along its shores. He also is directing explorations of the Patti basin, in California, one of North America's most arid regions.

Luther Burbank, the wizard of Santa Rosa, under a grant from the institute is developing new fruit and fodder plants, notably many new species of berries obtained by crossing two plants of the solanum or night shade family, one from west Africa bearing an insipid black fruit and the other from Chile producing small, hard, green and equally insipid berries. From these night shades Burbank already has developed a delicious and absolutely new fruit, resembling the low bush blueberry of our eastern states.

IN BEHALF OF MISS TAYLOR

Plea of Insanity Made Before Justice Boyer at Evanston, Ill.

Chicago, Feb. 7.—Insanity or temporary aberration was pleaded before Justice Boyer in Evanston in behalf of Miss Estella Taylor of Galesburg, Ill., the former University of Minnesota student on trial in that suburb on charges of having passed worthless checks. J. J. Cassell of Minneapolis, an uncle of the young woman, testified that at times Miss Taylor's conduct had been such as to cause her friends to believe she was demented. Justice Boyer reserved his decision.

Extensive Peace Guards.

Some idea of what it costs to have military protection in Russia can be gathered by the following figures: Prince Naryszkin, whose estates are in Lithuania, near the Courland frontier, is afraid of strikes and riots. A year ago he asked for some dragoons, who were sent to the manor house and have been there ever since. For this he pays £190 a month to the government.

They have already cost him £2,280 in cash, to say nothing of huge quantities of meat, wood, straw, hay, oats and clover, which he is obliged to give them free of charge. All told, he reckons that his "protection" costs him about £4,000 a year. At such a rate only rich men can afford to feel secure in Russia. The poor ones must run the risk of being looted.

White Goose of February.
Down from his wilderness the north wind sings:
White Goose of February, flap your wings!
Powder the heavens with a drift of down,
Silver the meadows and the roof capped town.

Rude is the winter, and his touch is cold;
Frail are the seedlings in the crumbling mold;
Weak are the rootlets of the sapling trees.

White Goose of February, shelter these.

Chill is your plumage, yet it cloaks from harm
Waifs of the forest and the furrowed farm.

White Goose of February, hover here.
Brooding the blessing of a fruitful year.

The hale, the hearty, the strong can afford to toss this paper to one side impatiently when they read the following, but any sufferer in Brainerd who has suffered hours of torture caused by kidney complaint will stand in his own light if he does not follow the valuable advice offered here.

Mrs. J. H. Zellers, of 915 Main St., Brainerd, Minn., says: "Before using Doan's Kidney Pills I suffered for six months from my kidneys. The secretions were badly discolored and I also suffered from a heavy pain across the small of my back. A box of Doan's Kidney Pills were procured for me at H. P. Dunn's drug store. I took them and a cure resulted. I can truthfully say that I have not had a symptom since. On October 28th, 1904, six years after giving the above statement, Mrs. Zellers said: 'I am just as pleased to recommend Doan's Kidney Pills today as I was in 1898. I have not had an attack of kidney trouble since they cured me.'"

RIDDLE OF INSTINCT.

Scientists Are Studying Mysteries of Inherited Traits.

CURIOUS EXPERIMENTS MADE

Animals, Plants and Insects Used as Subjects—How Newly Hatched Turtles Make Their Way to the Sea. Developing New Fruits.

"When the hands are clasped together there is usually a perfect constancy as to which thumb is uppermost, but some people always put the right uppermost, others the left. I hope to find out if this character is inherited and, if so, what laws are followed," says F. E. Lutz of the Carnegie institute's laboratory of experimental evolution, according to a Washington dispatch to the Kansas City Star. A similar character he finds in the hind wing coverings of crickets, the right usually overlapping the left in males, although in some of the latter the reverse is the case. The inheritance of this position is being tested by Mr. Lutz, who, with insects as material, is studying the problems of heredity. He has mated 125 pairs of crickets for this season's work, and on his pedigree stock he has bred a new form, having underdeveloped wings, wing coverings and ovipositors, or egg planters.

To learn how heredity can be controlled is the primary function of this new laboratory, toward whose support \$25,000 of the ironmaster's millions is being annually appropriated. "The most important definite question to answer is, How may the course of the stream of germplasm that has come down to us from remote ages be controlled in its onward course?" says Dr. C. B. Davenport, director of the laboratory. Presuming that heredity is governed by the same laws in man and beast, Dr. Davenport is studying the lower animals first, because naturally they are more easily handled and more amenable to discipline. For this year's experiments he has twenty controlled strains in mammals, sixty in poultry, fifteen in cage birds, five in crickets, some two dozen in other insects and 400 in flowering plants. In some of his insects he has controlled the heredity for twenty generations.

The mysteries of "instinct" are being inquired into in the course of another series of investigations lately commenced by the institute. The ability of the newly hatched turtle to run directly toward the sea without losing time groping in a landward direction has been one of the phenomena of instinct long a puzzle to science. At the institute's new laboratory of marine biology at Tortugas, Fla., this problem has been lately attacked by Davenport Hooker of the laboratory staff. After experimenting with loggerhead turtles he finds that they are born with an instinct to go down hill and in the direction of the greatest light. This instinct leads the animals to the sea, as the shores on which they are hatched always slope down toward the ocean and as the reflected light from the water is always greater than that from the land. Neither the sound of the surf nor the smell of the sea guides them.

A study of the mysteries of "protective coloring" in insects has been commenced at the Tortugas station by Professor Charles R. Stockard. He has begun with that ungainly creature, the "walking stick," which nature has not only colored, but formed to deceive its enemies, for when hidden in foliage it looks like a slender twig with branches. Professor Stockard says that it feeds and breeds by night, and by day remains motionless in a protective attitude among the stems of its food plant, from which it is difficult to distinguish its form. Both the stems and the insect vary considerably in color, but the latter generally fails to select branches matching its own shade. When disturbed it usually drops bodily to a branch below or to the ground, where it feigns death. In a new series of experiments with these uncanny insects Dr. Stockard blackens their eyes and removes their feelers, after which he subjects them to various noises and colored lights "to test the modification of their behavior." He will announce his results later. He has also set upon wire legs dummy figures made up of parts of the bodies of dead walking sticks and has studied the behavior of live specimens toward them.

To determine what economic plants can be made to flourish in the great deserts of our arid southwest the desert botanical laboratory which the institution has built at Tucson, Ariz., is doing interesting work under the guidance of D. T. MacDougal, director of the department of botanical research. A boat lately built for this laboratory is now circumnavigating the great inland "Salton sea" of California, which has an area of 500 square miles. Mr. MacDougal estimates that the greater part of this lake will disappear in ten years, and this expedition is tracing movements of vegetation along its shores. He also is directing explorations of the Patti basin, in California, one of North America's most arid regions.

Luther Burbank, the wizard of Santa Rosa, under a grant from the institute is developing new fruit and fodder plants, notably many new species of berries obtained by crossing two plants of the solanum or night shade family, one from west Africa bearing an insipid black fruit and the other from Chile producing small, hard, green and equally insipid berries. From these night shades Burbank already has developed a delicious and absolutely new fruit, resembling the low bush blueberry of our eastern states.

ROAD BUILDERS OF MINNESOTA

Convention Will be Held in the Office of State Highway Commission

ST. PAUL FEBRUARY 27TH

Meeting Follows That of Surveyors and Engineer's Society of Minnesota

State Engineer Geo. W. Cooley has sent out an announcement of a convention of road builders of Minnesota. It is certainly almost imperative that Crow Wing county should have a good representation there, not only that she may get her share of the funds, but that the gospel of good roads may be spread throughout the county and state. The following is the circular sent out:

"St. Paul, Minn., Feb. 6, 1908.

"DEAR SIR:—

"A convention of road builders of Minnesota will be held in the office of the highway commission in the new capitol in St. Paul on Thursday, Feb. 27th, 1908, commencing at 10 a. m.

"At this meeting all persons interested in road construction are urgently invited to be present. County and town boards are especially requested to send at least one delegate, and all county superintendents of highways and town road inspectors are expected to be present and take part in the discussion of all matters pertaining to road construction.

"The laws relating to the highway commission and distribution of state aid; details of construction and maintenance of roads and all matters pertaining thereto will be subjects for general debate.

"If you have any particular plan or suggestion, or advice in the matter of road work or any question to ask, come and take part in the proceedings so that we may all be benefited by a mutual interchange of ideas.

"The Minnesota Surveyors' and Engineers' society meets in Minneapolis on Feb. 25th and 26th and this meeting will be held immediately after.

"All superintendents of highways are requested to notify their town road inspectors of this meeting and to see that a copy of this invitation is inserted in all local papers.

"County auditors are requested to send a copy to each member of the county board and to be present themselves if possible.

"If you cannot be present send in such questions as you may wish to have information on and they will be replied to immediately after the close of the meeting.

"As the highway commission meets on March 3rd for the purpose of distributing the 1908 fund, it is deemed of great importance that your county should be officially represented at this meeting.

Respectfully,
GEO. W. COOLEY,
State Engineer."

WERE OUTCLASSED

Brainerd Basket Ball Team Was Out-classed by "Big Bemidji" but Were Treated Royally There

The Brainerd boys were out-classed in the basket ball game at Bemidji Friday night. This they fully expected as the "Big Bemidji" team is famous over the state and has not met a defeat this year. Our boys were much younger and lighter than the Bemidji team and had had less practice. Floyd Brown, formerly of this city, is the lightest man on the Bemidji team and they are very speedy. Frank Andrews played the star game for Brainerd. The boys say the Bemidji team knows how to treat an opposing team as well as how to beat them and that they were entertained royally while in that city. The final score was 62 to 8 and our boys feel that they did well to score against so strong a team. The first half was 24 to 2 and a score of 38 to 6 was made in the last half. The halves were of 20 minutes each.

FUNERAL SUNDAY AFTERNOON

Arrangements Have Been Made for Funeral of Miss Ella Parker at Mr. and Mrs. A. P. Raymond's

THE DISPATCH was misinformed yesterday as to funeral arrangements for Miss Ella Parker not having been made. The funeral will take place at the residence of Mr. and Mrs. A. P. Raymond, Sunday afternoon, Rev. J. R. Alten officiating unless some unforeseen delay is caused. Interment will be in Evergreen cemetery. The Episcopal church is being repaired and is not in condition to use, otherwise the funeral would be held in the church.

The Jumping off Place

"Consumption had me in its grasp and I had almost reached the jumping off place when I was advised to try Dr. Kings New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at H. H. Dunn's drug store. Trial bottle free. tts

MUSIC AND DRAMA

The Meistersingers

The last number of the Y. M. C. A. lecture course will be given Tuesday evening, February 18 by the Meistersingers, a male quartette of great ability. The quartette is composed of John Hopkins, first tenor; Parley S. Breckenridge, second tenor and accompanist; C. C. Marshall, baritone and crayon artist; and L. H. Gerhardt, basso and reader. The Marshalltown, Ia., Daily Times Republican says of them:

"Sunday night's program was a delightful treat to the audience, which filled the tent. It consisted of musical numbers by the Meistersinger Male Quartette, who impressed the people here as being all that their name implies—Master Singers of the highest rank. They were exceedingly liberal, responding pleasantly to encores time after time."

Strongheart

The production of "Strongheart" by Ralph Stuart and his company at the opera house last night was certainly a meritorious entertainment. The title role was presented by Mr. Stuart in a masterly manner and was an impressive one. His acting was strong throughout and intensely dramatic at times. The part of "Dorothy Nelson," the girl whose love he won, but whom duty and race prejudice made him put aside to aid his people, was strongly played by Evelyn Vaughn. "Billy Saunders," a freshman by courtesy, was a likeable fellow, forever blundering, but true hearted. The part was well taken by Earl Mitchell. Francis Bonn who played the two different roles of head coach and of "Black Eagle," a messenger from the tribe of "Strongheart," is a fine actor. The audience was almost breathless during his dramatic appeal to "Strongheart."

Neighborhood Favorite

Mrs. E. D. Charles, of Harbor, Maine, speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at H. P. Dunn's, druggist. tsw

THEIR OBJECTS ARE UNKNOWN

Residents are Getting Duck Guns out and Someone is Liable to Get Winged

For some time parties have been seen prowling around houses on the North side. At one place a man has been seen at least two different evenings peering into the bay windows of a North Broadway residence. A North Seventh street resident had a similar experience a night or two ago. The lady of the house sat writing near a window and looking up saw two men looking into the window. Her husband, who was in the basement heard them talking plainly but did not catch what they said.

There are also reports that carpenter or burglar tools were found near a North side residence and that with them was a bottle of ether. The report, however, has not been traced down.

As a result several of the North side residents have hunted up their duck guns, bought buckshot cartridges and are waiting for the party to resume his rounds. There will be another patient for the hospital if he is caught by some of them.

SURPRISE PARTY

The Friends of Thomas F. Mooney Surprised Him on Friday, His Fiftieth Birthday

Yesterday being the fiftieth anniversary of Thos. F. Mooney's birthday, his many friends considering it an occasion worthy of celebration assembled at his home in East Brainerd and without giving the slightest intimation to Tom they surrounded him with a happy surprise party.

To mark the golden occasion with some token of the deep esteem and warm appreciation which his friends have always retained for Mr. Mooney, they made him the recipient of a very handsome and valuable electric table lamp. Cards, songs and music furnished the entertainment for the evening. Miss Nora O'Mahony, of Brainerd, sang "O, Would not a Meeting Like This Make Amends," and in response to a hearty encore she gave a very pleasing and effective rendition of "When Other Lips and Other Hearts." Miss Irene Logan delighted the audience with "Eileen Aroon" and being warmly encored she then delivered, "Starlight" in a thoroughly captivating style. Miss Mamie Scallon contributed "Mavourneen" and in acknowledging the plaudits of the company she gave, "I Love and the World is Mine." At the close of the festivities Mr. Mooney thanked his friends very cordially for their precious birthday gift and the generous loyalty which prompted it and more than their kind thoughtfulness in gathering to celebrate with him his fiftieth birthday.

Percentage daily attendance..... 92

On February 14 the pupils will celebrate with a valentine party and a taffy pull.

The district is making many improvements, fixing the stovepipes, turning the seats, putting up window shades, and exchanging old books for new. The pupils themselves have caught the spirit of the times. One boy made a fine waste paper basket, and another is making a book case, while the girls have hemstitched curtains for the cupboard, and painted a fine border on the shelf paper.

ROAD BUILDERS OF MINNESOTA

Convention Will be Held in the Office of State Highway Commission

ST. PAUL FEBRUARY 27TH

Meeting Follows That of Surveyors and Engineer's Society of Minnesota

State Engineer Geo. W. Cooley has sent out an announcement of a convention of road builders of Minnesota. It is certainly almost imperative that Crow Wing county should have a good representation there, not only that she may get her share of the funds, but that the gospel of good roads may be spread throughout the county and state. The following is the circular sent out: "St. Paul, Minn., Feb. 6, 1908.

"DEAR SIR:—
"A convention of road builders of Minnesota will be held in the office of the highway commission in the new capitol in St. Paul on Thursday, Feb. 27th, 1908, commencing at 10 a. m.
"At this meeting all persons interested in road construction are urgently invited to be present. County and town boards are especially requested to send at least one delegate, and all county superintendents of highways and town road inspectors are expected to be present and take part in the discussion of all matters pertaining to road construction.
"The laws relating to the highway commission and distribution of state aid; details of construction and maintenance of roads and all matters pertaining thereto will be subjects for general debate.
"If you have any particular plan or suggestion, or advice in the matter of road work or any question to ask, come and take part in the proceedings so that we may all be benefited by a mutual interchange of ideas.
"The Minnesota Surveyors' and Engineers' society meets in Minneapolis on Feb. 25th and 26th and this meeting will be held immediately after.
"All superintendents of highways are requested to notify their town road inspectors of this meeting and to see that a copy of this invitation is inserted in all local papers.
"County auditors are requested to send a copy to each member of the county board and to be present themselves if possible.
"If you cannot be present send in such questions as you may wish to have information on and they will be replied to immediately after the close of the meeting.
"As the highway commission meets on March 3rd for the purpose of distributing the 1908 fund, it is deemed of great importance that your county should be officially represented at this meeting.

Respectfully,
GEO. W. COOLEY,
State Engineer."

WERE OUTCLASSED

Brainerd Basket Ball Team Was Out-classed by "Big Bemidji" but Were Treated Royally There

The Brainerd boys were out-classed in the basket ball game at Bemidji Friday night. This they fully expected as the "Big Bemidji" team is famous over the state and has not met a defeat this year. Our boys were much younger and lighter than the Bemidji team and had had less practice. Floyd Brown, formerly of this city, is the lightest man on the Bemidji team and they are very speedy. Frank Andrews played the star game for Brainerd. The boys say the Bemidji team knows how to treat an opposing team as well as how to beat them and that they were entertained royally while in that city. The final score was 62 to 8 and our boys feel that they did well to score against so strong a team. The first half was 24 to 2 and a score of 38 to 6 was made in the last half. The halves were of 20 minutes each.

FUNERAL SUNDAY AFTERNOON

Arrangements Have Been Made for Funeral of Miss Ella Parker at Mr. and Mrs. A. P. Raymond's

THE DISPATCH was misinformed yesterday as to funeral arrangements for Miss Ella Parker not having been made. The funeral will take place at the residence of Mr. and Mrs. A. P. Raymond, Sunday afternoon, Rev. J. R. Alten officiating unless some unforeseen delay is caused. Interment will be in Evergreen cemetery. The Episcopal church is being repaired and is not in condition to use, otherwise the funeral would be held in the church.

The Jumping off Place

"Consumption had me in its grasp, and I had almost reached the jumping off place when I was advised to try Dr. King's New Discovery; and I want to say right now, it saved my life. Improvement began with the first bottle, and after taking one dozen bottles I was well and happy man again," says George Moore, of Grimesland, N. C. As a remedy for coughs and colds and healer of weak, sore lungs and for preventing pneumonia New Discovery is supreme. 50c and \$1.00 at H. H. Dunn's drug store. Trial bottle free. tts

MUSIC AND DRAMA

The Meistersingers

The last number of the Y. M. C. A. lecture course will be given Tuesday evening, February 18 by the Meistersingers, a male quartette of great ability. The quartette is composed of John Hopkins, first tenor; Parley S. Breckenridge, second tenor and accompanist; C. C. Marshall, baritone and crayon artist; and L. H. Gerhardt, basso and reader. The Marshalltown, Ia., Daily Times Republican says of them: "Sunday night's program was a delightful treat to the audience, which filled the tent. It consisted of musical numbers by the Meistersinger Male Quartette, who impressed the people here as being all that their name implies—Master Singers of the highest rank. They were exceedingly liberal, responding pleasantly to encores time after time."

Strongheart

The production of "Strongheart" by Ralph Stuart and his company at the opera house last night was certainly a meritorious entertainment. The title role was presented by Mr. Stuart in a masterly manner and was an impressive one. His acting was strong throughout and intensely dramatic at times. The part of "Dorothy Nelson," the girl whose love he won, but whom duty and race prejudice made him put aside to aid his people, was strongly played by Evelyn Vaughn. "Billy Saunders," a freshman by courtesy, was a likeable fellow, forever blundering, but true hearted. The part was well taken by Earl Mitchell. Francis Bonn who played the two different roles of head coach and of "Black Eagle," a messenger from the tribe of "Strongheart," is a fine actor. The audience was almost breathless during his dramatic appeal to "Strongheart."

Neighborhood Favorite

Mrs. E. D. Charles, of Harbor, Maine, speaking of Electric Bitters, says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at H. P. Dunn's, druggist. tsw

The committee determined upon March 26 as the date of the first state convention to select national delegates and Cedar Rapids as the location; the second state convention will be held in Sioux City on July 2.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery," a subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on chronic coughs, bronchitis and nervous troubles and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of Hydrogen in solution, it is one of the best manufactured products of the present time in its action upon engorged, disordered stomachs, especially if there is ulceration or catarrhal gastritis catarrhal inflammation of stomach; it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Women's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.
I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whites, Discharges, Ulceration, Displacement of the Uterus, Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can old or young. To Mothers of Daughters, I will explain a simple home remedy. It cures all, and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you how this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

Democratic State Central Committee for the Nebraskan.

Des Moines, Ia., Feb. 8.—A resolution endorsing William J. Bryan was unanimously adopted by the Democratic state central committee and notice of its adoption sent by wire to Mr. Bryan. This action came only after a whole day of maneuvering, in which the radicals showed themselves completely in the majority over the conservative Democrats who have in the past opposed Bryan.

The committee determined upon March 26 as the date of the first state convention to select national delegates and Cedar Rapids as the location; the second state convention will be held in Sioux City on July 2.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchitis and nervous troubles and chronic sore throat with the greatest of ease. In acute coughs it is not so effective. It is in the lingering, hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of Hydrogen in solution, it is one of the best manufactured products of the present time in its action upon engorged, disordered stomachs, especially if there is ulceration or catarrhal gastritis, catarrhal inflammation of stomach, it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing his wonderful medicine. There is no alcohol in it.
